William J. Yates appears as the largest individual stockholder, but this stock is supposed to be the property of the Guggenheim interests.

W. B. Thompson, a Utah director, appears on the list as holding only 101 shares, but as he is assumed to be one of the heaviest stockholders in the company, being a director, it is evident that the bulk of his stock is registered elsewhere under a different name.

The Utah Copper company has a total of about 2500 shareholders.

PEARY EXPLAINS WHY HE ATTACKED COOK

NEW YORK, April 25.—At a farewell luncheon tendered him at the Brooklyn club today, Commander Robert E. Peary, who will sail for Europe tomorrow, explained why he attacked the claim of Dr. Cook on his return from his polar trip.

"Three weeks before I got back to civilization I had the fullest information of what had been done by another in the Arctic regions, and when and where and what would be claimed by this man. The telegram I sent which caused me to be criticized, was sent deliberately and after full consideration. That was my position.

"I knew that a deliberate attempt was to be made to defraud the country, morally and financially, and as an officer of the United States navy I felt I must give warning to the country and that I owed to myself also to give warning that I might escape a charge of being an accessory to the crime. My position is still unchanged and will not be changed hereafter."

Watson Stirs Things.

Former Congressman J. A. Watson of Indiana, Republican whip in the house of representatives, prior to his resignation to run for governor, brought his audience to his feet in an impassioned attack on demagogues. No names were mentioned in his attack, but his descriptions were so vivid that Vice President Sherman at least understood to whom he referred.

Jumping from reference to that "marvelous man" Theodore Roosevelt, who is coming back with all nations at his feet, Mr. Watson protested against any class against class which, he said, was contrary to the square deal Rooseveltian policy.

"There is danger in this sentiment," he thundered, "because the demagogue will seek to use it for selfish purposes, to help himself into government position by fastening upon the body people."

"Look out for the demagogue. He is the most dangerous man today."

"These always claim to be the people's best friends; they are your worst enemies," he declared, suddenly shifting from the singular to the plural.

"I know them. I know one, and if my distinguished friend, the vice president, were not here, I would name him. He runs his hands through his hair and exclaims, 'How long must I strive to lift the burden from the people?'"

"I'll tell you how long he will last. He will last just as long as the chautauqua tickets hold out."

"I have no patience with the man who says the whole world is going to the devil. It is not. This is the best day the world ever saw. If that is not so, all of history is a mockery and God is a myth. Don't listen to the demagogues. The man who would incite the mob for his own selfish ends is worse than a traitor in time of war."

"If I had time I would make just as strong a speech for high protection and ship subsidies as have my friends," he concluded, referring to Mr. Sherman and Representative Bassett of New York.

Mr. Watson announced he is now en route to Kansas and Oklahoma to make a series of speeches in defense of the tariff.

Congressman Fassett repeated an address given by him in congress favoring ship subsidy.

Mr. Sherman and party left for Washington at 11:30 o'clock tonight.

COLD WAVE HITS THE SOUTH HARD

Damage Reaches Scores of Millions
Both to Cotton and
Fruit Crops.

ATLANTA, Ga., April 25.—With millions of acres of young cotton destroyed by the cold weather, which today over-spread the entire cotton belt, with the unusual appearance in many sections of snow and sleet, the south has suffered its most disastrous financial setback, perhaps, since the Civil war.

Reports received tonight indicate the cold snap has not abated in Georgia, South Carolina, Tennessee, northern Alabama, Louisiana, Mississippi, and even further west, and for much of this territory a heavy frost and freezing temperatures are predicted for Tuesday morning. In Atlanta and throughout the northern half of Georgia, except near the Atlantic, the thermometer has been below 40 degrees above zero all day, with falling temperatures recorded tonight.

Snow fell as far south as Selma, Ala.; Columbus, Miss., and Columbus, Ga. In north Georgia, Tennessee, and parts of northern Alabama and Mississippi, the fall ranged from one to four inches.

Confessed oil mills in this state and Alabama today were appealed to for seed for replanting, and state officials implored the farmers to have been supplied. It is doubtful, however, if there is sufficient seed to replant one-half of the area of young cotton destroyed by the cold.

GOVERNOR BRADY AFTER GRAFTERS

Possibility of Some Shakeups
in the State Offices of
Idaho Apparent.

Special to The Tribune.
BOISE, Ida., April 25.—The resignation of M. I. Church as register of the state land department was followed by charges of graft upon which Governor Brady today issues a statement applicable to all state offices, and their employees which may be far reaching in its scope. His statement is in part as follows:

"Persons filling elective or appointive positions of trust under the state government should either resign from the position they occupy or absolutely refrain from taking advantage of the position they occupy for the purpose of personal gain. This statement is presumed here to apply to the attorney general's office, wherein Deputy Attorney General J. H. Peterson is one of the projectors of the Medbury irrigation project."

ST. JOHNS, N. F., April 25.—The sealing steamer Boathill, which arrived here last night, has brought from the fishing bank a report that the steamer Aurora has been sunk.

MAN WITH UTAH RECORD CAPTURED

For Third Time, Charles Phelps,
Bad Gun Man, Faces
Prison Life.

Prison life for the third time stares Charles Phelps, a man with an evil record, in the face.

Advised from Boise, Ida., Monday night, carried the information that Phelps, who has served two terms in state prison for murder, has been captured at Hood River, Or., and Sheriff Dwyer of Twin Falls county, Idaho, is expected at Boise today to procure extradition papers for his return to Idaho to answer to a charge of assault with intent to murder, committed on John May, 27 years old, in a card game in the Tinsmith poolroom at Buhl, Ida., March 20, this year.

One of Phelps' prison sentences for murder was served in the Idaho state pen and the other in the Utah state prison. For the shooting of Hober West through the heart at Pocatello, about twenty years ago, Phelps, then United States deputy marshal, known as a dangerous gun man, was sentenced to six years in prison, but served only four before he was pardoned.

Phelps in the course of time came to Salt Lake City and with Jesse McMillan, poisoned John Egan by placing morphine in Egan's glass of beer in the old Senate saloon, then dragged Egan's body into an alley and robbed him, leaving him there to die.

McMillan got twenty years in the state prison here, and Phelps was given life, but McMillan was pardoned some time ago, as he was dying of consumption, while Phelps got a pardon about a year ago, although Alice West, the widow of Phelps' victim in Idaho, and Earl Ripley, a member of the Salt Lake detective department, who in the interim had met, wooed and won Mrs. West with District Judge Morrell, bitterly fought clemency for Phelps.

Phelps' assault on May at Buhl is said to have been without provocation, so incensed the citizens of Buhl that the authorities feared Phelps might be lynched if caught there. Without warning, it is said, Phelps plunged a knife through May's left lung, and after May fell to the floor repeatedly stabbed him. In the ensuing confusion Phelps escaped.

ROBERT AMOS STRUCK BY AUTO AND HURT

Robert Amos, residing at 310 East Fifth South street, was struck by an automobile driven by the owner, J. H. Hampton, this Tuesday morning at 2:30 o'clock near the intersection of Second South and West Temple streets, and knocked to the ground unconscious. Hampton immediately stopped the machine and took the injured man to the emergency hospital, where his injuries were treated.

At the hospital Hampton said that while he was driving his car home, Amos, who had evidently become bewildered by the headlights, dodged into the car instead of away from it, and was knocked to the ground. At the emergency hospital Amos could recall nothing regarding the accident.

ADDITIONAL SPORTS

FIGHTERS CANNOT AGREE UPON THIRD MAN

Young Edeborn and "Peanuts" Sinclair seem to be unable to agree upon a referee for their contest at Ogden Thursday night. Sinclair says that he is willing to stand for any responsible business man and favors William Bean or Tom Painter, but Edeborn says he does not want either man. Efforts were being made to secure Burns of Park City for referee, who is said to be a good man. Manager Brown of Sinclair says that Edeborn wants a Denver referee and he will not stand for that.

It looks very much as if the third man will have to be selected at the ringside. Sinclair says that he has still \$100 left which he is willing to wager with Edeborn that he will win.

Balloon Runs Away.

LIMBURG-AN-DEK-LAHN, Prussia, April 25.—The Zeppelin II, one of the three dirigible balloons of the German government's aerial fleet, ran away today and was destroyed.

The airship, which was forced to descend here last night owing to a storm encountered while attempting to return from Hamburg to Cologne, broke her moorings and without a crew drifted in a northeasterly direction. A half hour after its escape the dirigible dropped at Wehlburg and was smashed to pieces.

The Postal Messengers took a fall out of the A. D. T. Monday afternoon in a match ball game by the score of 16 to 14. Neither team has had much practice, which was given as an excuse for the big score. Both pitchers were easy, but the good fielding kept the runs down somewhat.
